

INSTRUCTIONS FOR MEASUREMENT OF SIR JOSEPH GAITERS 8000

Applicable for **GAITERS 8000** (for trekking a skeletal boots) and **GAITERS 8000 SKI** (for skialp boots with pin bindings).

GAITERS 8000 are custom made for individual boots. We need your boot to be sent to our address (see our address below). If you can't send us one of your boots, then we can produce the GAITERS according your measurement – see instructions:

Pict. 1

Pict. 2

1) Draw the boot sole outline on a paper (see pict. 1)

Use sheet size A4.

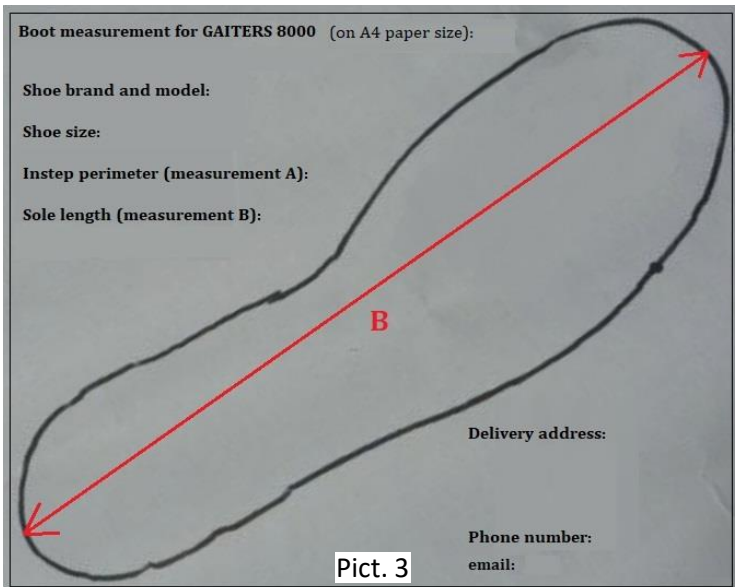

When the sole can't fit to one page, use 2 sheets of A4.

2) Measure the instep perimeter (A) of your boot (see pict. 1 and pict. 2)

3) Measure the sole length (B) on the sole drawing (see pict. 3)

4) Add the following data to the drawing:

- Shoe brand and model
- Shoe size
- Instep perimeter (A)
- Sole length (B)
- Delivery address including your mobile phone and email

Pict. 3

5) Scan this drawing with all data (pict. 3) into PDF file (scale 1:1) and send your order by email to info@sirjoseph.cz

We don't accept photos (JPG, ...).

We need an A4 sheet to be scanned into PDF file.

Then we confirm your order and agree on the payment and shipment details.

By placing an order customer expresses his consent to Sir Joseph s.r.o. [General Terms and Conditions](#) and consent to personal data handling according Sir Joseph s.r.o. [Customer Privacy Policy](#).

Custom made GAITERS 8000 are produced within 14 days after getting the boot or the measurement and upon a prepayment.

Custom made products are not eligible for return. In case of production the GAITERS according a customer's measurement, producer is not liable in case the GAITERS doesn't fit perfectly. We recommend to send one of the boots to our address to ensure a perfect fit.
